## NEW COLOUR & ADDITIONS

Inspired by the seasons

Stonecast is an exciting collection of rustic and hand decorated products inspired by the changing seasons and fresh ingredients. The rustic collection is revived from a design in the Churchill archives, dating back to the days of the James Broadhurst factory. Stonecast is hand decorated and then finished with a fine speckle and rustic edge in a rich golden brown. The nature of the manufacturing process means that every piece will be slightly different, adding to the overall charm of the product.

Introducing Petal Pink as the eleventh colour in the Stonecast collection, a statement colour ideal for serving desserts, brunches and meat free dishes. Shape additions to Stonecast include walled plates and large coupe bowls in a selection of existing colours.

# Patina

Inspired by surface texture

Stonecast Patina is inspired by tones and surface texture created naturally over time, shaped on materials such as metal, stone, leather and wood. Patina is a modern interpretation of the antique sheen effect created by aging. The nature of the manufacturing process means that each piece will be slightly different, adding to the overall charm of the product. With a range of technical attributes, Stonecast Patina is designed to withstand the rigours of a back of house hospitality environment.

Patina beverage in Antique Taupe is new for spring 2020. The hand decorated colour features a reactive texture, enhancing the rustic charm and making each piece a unique creation.

# Haze

A Balance of Colour

Haze is a contemporary addition to Studio Prints, a collection of designs inspired by traditional studio pottery. The Haze design features a multi-tonal pattern inspired by the process of spraying glaze on to ceramics. Decorated underglaze in Churchill's semi matte Vellum finish, an innovative glaze formula that has been specially developed to perform to British hospitality standards.

Introducing the first colour in Studio Prints Haze, a soft and muted blue tone that is ideal for mixing with other Studio Prints designs and the wider Churchill portfolio. The balance of white space and colour creates a subtle finish.

# Kintsugi

Interpreting Ceramic Arts

Studio Prints collections are a contemporary take on traditional studio pottery, the new Kintsugi design is a modern interpretation of the Japanese art of repairing broken property. The intricate crackled design features a subtle, reactive texture that makes each piece unique. The design is decorated underglaze, creating a protective layer for added durability.

The Kintsugi design is available in Agate Grey, a subtle and reactive colour tone that enhances the delicate pattern.
